

GEAR UP Service Hours

The chart below shows the service hours accessed through GEAR UP broken out by intervention category. Calculations include total hours, percentage of GEAR UP participation, students served, and average hours per student. This information can be compared and contrasted to understand what services are provided and which are taken advantage of by students, educators, and families.

Total Students Served by GEAR UP in 22-23: **5351**
 Percentage of GEAR UP Participation: **95%**

Unduplicated number of educators that actively participated in at least one GEAR UP professional development activity:

= **527** PD activity participants

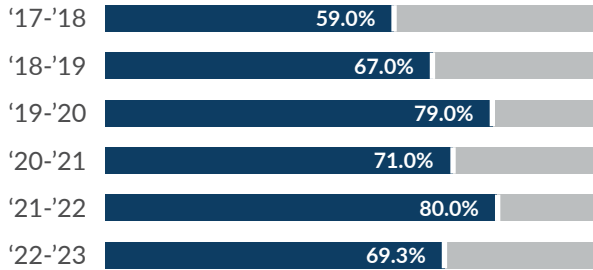

Total, unduplicated number of GEAR UP students with parents, guardians, or other family members that actively participated in one or more activities during the reporting period:

= **1552** GU Family Participants

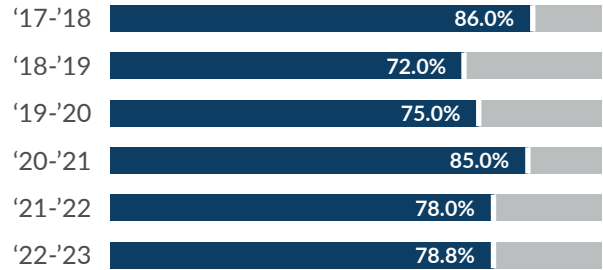

GEAR UP Performance Indicators (PI)

The Performance Indicators below provide the ability to do periodic assessment of progress toward achieving project objectives and are reported each year to the US Department of Education. It is our goal that these Performance Indicators and this report serve as a regular reference point for future planning and decision-making.

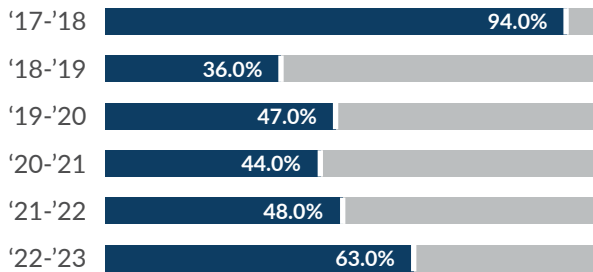

75% of students complete Pre- Algebra by the end of 8th Grade

75% of students complete Algebra by the end of 9th Grade

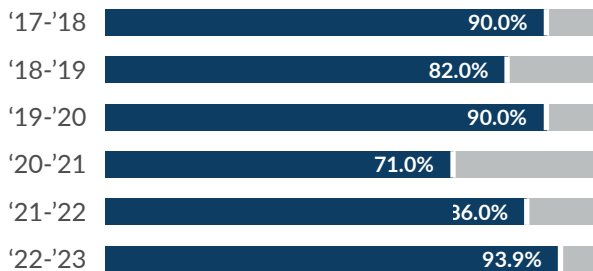

75% of students complete 2 years of math beyond Algebra 1 by 12th Grade

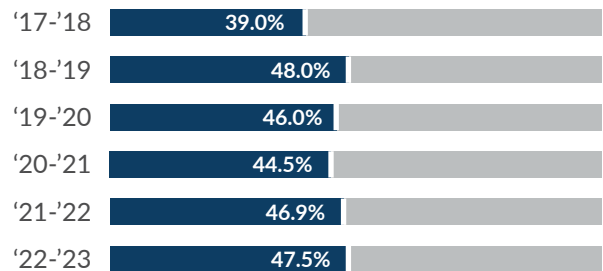

90% of students will be on track for graduation as determined by % credits earned

90% of students will graduate

60% of GEAR UP students and former GEAR UP students will enroll in college

Dual Enrollment
9%

Fall Postsecondary Enrollment
38%

*2023 postsecondary enrollment baseline data comes from the National Student Clearinghouse and includes students who enrolled fall immediately after high school graduation. The enrollment figure may not include all students because of student FERPA blocks and colleges that don't report to NSC.
